

## Register for IBM Cloud

Team ID	PNT2022TMID52735
Project Name	Project - A Novel Method for Hand Written Digit Recognition

The screenshot shows the IBM Cloud Pak for Data dashboard for user Swathi G. The interface includes a top navigation bar with the IBM Cloud Pak for Data logo, a search bar, and user account information. The main content area features a welcome message, three quick start guides (Take a tutorial, Work with data, Learn what's new), and a central section with four panels: Quick start, Projects, Catalogs, and Notifications. The Projects panel shows 'No recent projects' and a 'New project' button. The Catalogs panel shows 'No catalogs' and a 'New catalog' button. The Notifications panel shows 'No notifications'.

IBM Cloud Pak for Data

Welcome, Swathi!

**Take a tutorial**  
Step through implementing a Data fabric use case in a sample project.

**Work with data**  
Create a project for your team to prepare data, find insights, or build models.

**Learn what's new**  
Stay current with new features, enhancements, and other changes.

**Quick start**

- Create data pipelines with DataStage
- Build customer profiles with IBM Match 360 with Watson
- Catalog and govern data with Watson Knowledge Catalog
- Build and manage ML models

**Projects**

No recent projects  
After you create projects, you'll see your recently updated projects here.

**Catalogs**

No catalogs  
Your catalogs show here after you create or join them. Click New catalog to get started.

**Notifications**

No notifications  
You will see your most recent notifications here.

The screenshot shows the IBM Watson Studio dashboard for user Vyshnavi S. The interface includes a top navigation bar with the IBM Watson Studio logo, a search bar, and user account information. The main content area features a welcome message, three quick start guides (Take a tutorial, Work with data, Learn what's new), and a central section with four panels: Quick start, Projects, Notifications, and Deployments. The Projects panel shows two projects: 'Testing using IBM cloud' and 'Handwritten Digit Recognition'. The Notifications panel shows 'Online deployment ready'. The Deployments panel shows a deployment named 'digit\_deploy'.

IBM Watson Studio

Welcome, Vyshnavi!

**Take a tutorial**  
Step through implementing a Data fabric use case in a sample project.

**Work with data**  
Create a project for your team to prepare data, find insights, or build models.

**Learn what's new**  
Stay current with new features, enhancements, and other changes.

**Quick start**

- Create data pipelines with DataStage
- Build customer profiles with IBM Match 360 with Watson
- Catalog and govern data with Watson Knowledge Catalog
- Build and manage ML models

**Projects**

- Testing using IBM cloud (Nov 13, 2022 10:33 PM)
- Handwritten Digit Recognition (Nov 10, 2022 03:38 PM)

**Notifications**

Online deployment ready  
The online deployment test in space digit\_deploy is ready to accept requests.  
Nov 13, 2022 11:01 PM

**Deployments**

- digit\_deploy (Nov 13, 2022 01:01 PM)
